WOODHOUSE CLEAR GRAIN

LIMITED PRODUCT GUARANTEE

Clear Grain™ is a range of decorative and joinery timbers manufactured from New Zealand radiata pine that is certified by the Forest Stewardship Council® (FSC). Each product in the range has been engineered so that the wood grain runs vertically along each length, optimising performance and appearance in service. These timbers, all laminated and primed, come in different lengths.

External Clear Grain is H3 LOSP-treated and can be installed in a variety of exterior, above-ground applications. After profiling and treating the timbers, Intergrain Universal™ Timber Oil primer is applied to protect them from exposure to sunlight, rain and humidity during installation and ensure that the finished products are ready for final top coating.

SUSTAINABLE

Manufactured in New Zealand from 100% FSC®-certified radiata pine, a renewable and carbon negative resource. Replacement radiata pine trees are planted after the logs are harvested.

FLAWLESS

Laminated thus smooth to the touch and free of knots, resin pockets and other visible defects.

TIME-SAVING

Easy to work with: lightweight and easy to cut, drill and shape; quick to oil or stain.

NEUTRAL COLOURING

Pale, neutral coloured, allowing for the application of a wide variety of tinted and translucent finishes. Does not leach tannins and other extractives onto surrounding surfaces.

PRICE COMPETITIVE

Looks like hardwood but at softwood price points, offering savings up to half the cost of certain hardwoods.

PROTECTED

Clear Grain Exterior is H3 treated and protected by Light Organic Solvent Preservative (LOSP).

GUARANTEED

Clear Grain provides peace of mind with a 15 year product warranty.
